

[Change Party Member]

Functions

- Changes the player's party members.
- 1 actor can be added or removed per command.

Settings

- Under [Operation], specify whether to add or remove actors from the party.

Add Adds an actor to the party.

Remove Removes an actor from the party

- [Actor]: Specify the actor to change using one of the methods below.

Fixed A particular actor will be the target. Choose the actor from the dropdown menu.

The actor with the same number as the value stored in the given variable will be the target.

Variable For example, if variable no. 2 is specified which contains “5” at the time the command is processed, actor no. 5 will become the target of this command.

Choose the variable to use from the [Variables] window which can be opened by clicking the [...] button.

Notes

- It is possible to temporarily reduce the party to 0 members.
