

[Recover All]

Function

- Removes all status effects from actors and increases HP and MP to their maximum values.

Settings

- Under [Target], choose which actor to heal.

Entire

Party

All the members of the party at the time the command is carried out will be the targets of this command.

Fixed

A particular actor will be the target. Choose the actor from the dropdown menu.

The actor with the same number as the value stored in the given variable will be the target.

Variable

For example, if variable no. 2 is specified which contains “5” at the time the command is processed, actor no. 5 will become the target of this command.
