

[Change Actor Faceset]

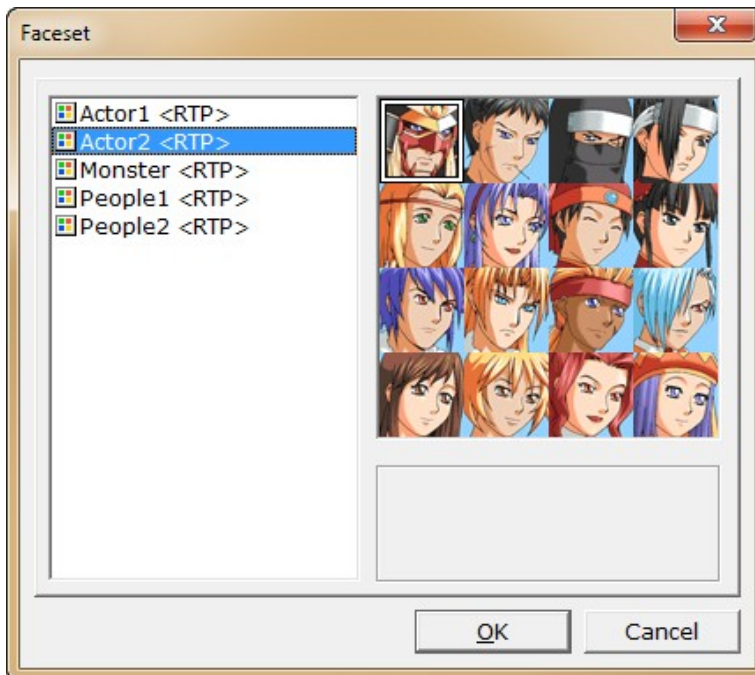

Function

Changes an actor's face graphic.

Settings

- The process is as follows.
 1. From the [Actors] dropdown menu, choose the actor whose face graphic is to be changed. The current face graphic will be displayed.
 2. Click the [Settings] button under [Face graphic] to open the [Face graphic] window (see below).

3. Choose the image file that contains the new face graphic from the list on the left side of the window.
