

4. Click the face graphic to use, and click the [OK] button. The changed image will be shown under [Face graphic].

[Change Vehicle Graphic]

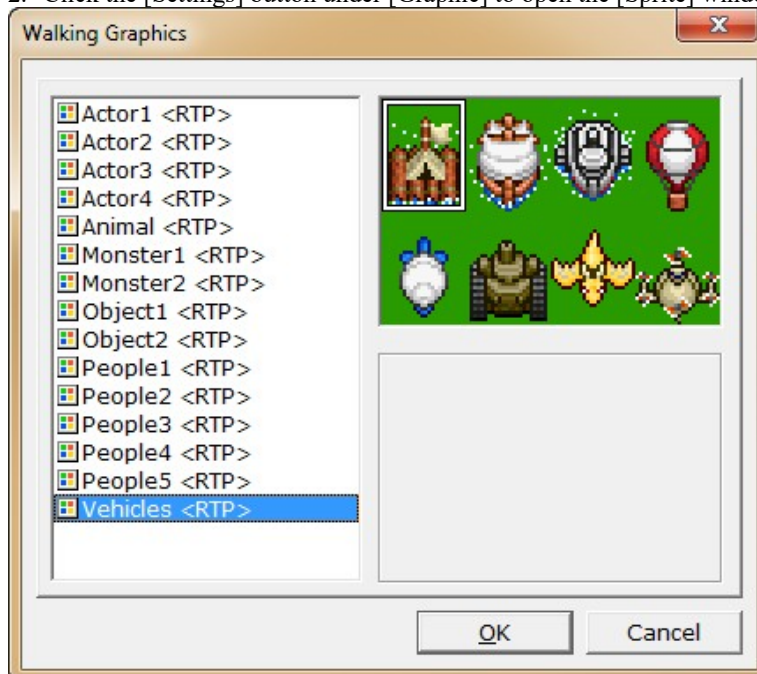

Function

- Changes the settings for vehicle graphics.

Settings

- The process is as follows.
 1. Under [Vehicle], specify whether the vehicle to be changed is a small ship, large ship or airship. The currently set image will be shown under [Graphic].
 2. Click the [Settings] button under [Graphic] to open the [Sprite] window (see below).

3. Choose the image file that contains the new vehicle graphic from the list on the left side of the window.
4. Click the vehicle graphic to use, and click the [OK] button. The changed image will be shown under [Graphic].
