

Balance be played at the same sound level from both speakers.

[Change System Graphic]

Function

- Change system graphics settings.

Settings

- From the list on the left of the window, choose the file that contains the system graphics to be used. The specified file will be shown in a preview window on the right.
- Under [Wallpaper], the method for displaying the window background pattern can be chosen from two options.
 - Stretch: Stretches the pattern to fit the window size.
 - Tile: Tiles the pattern to fit the window.
- Under [Font], the font used for text can be chosen from RPG2000 and RPG2000G.
